

Roman Numbers 2

How well do you know your Bible stories? See if you can answer the questions below and for a bit of fun see if you can write them as Roman numbers too! If you are struggling, check on the episode or check out the Bible reference.

To help you, here is a key:

I = 1

V = 5

X = 10

L = 50

C = 100

To make other numbers simply group these numbers together. Here are some examples:

- To make the number two, use two number ones together – like this II
- To make the number eight, use the number five and three number ones – like this VIII
- To make the number twenty six, use two number tens, a number five and one number 1 – like this XXVI
- To make the number four, use a one before a five – like this IV
- To make the number nine, use a one before a ten – like this IX

- 1 How old was Jesus when Mary and Joseph found him sitting with the teachers in the temple of Jerusalem? **Episode 14 – Luke 2:42**
